

Update Omnissa Horizon Client

05/07/2025 11:36 am EDT

Here you can find a quick guide on how to update your Omnissa Horizon Client. Remember to do this outside of your Boxtop session! There are 2 ways to update.

Option 1 - Use your current Omnissa Horizon Client:

1. Start the VMware Horizon Client application.
2. Click the 3 dots on the top right of the screen.

4. Select "Software Updates" (The client will look for any new updates automatically)
5. Select "Download and Install" to install the update.
6. After this completes it will ask if you want to perform the update, select "Yes, update"
7. Once this completes it will ask you if you want to restart now or later, the option is up to you but restarting asap is recommended.

Option 2 - Download the latest version from the website

1. Open up your browser and go to https://customerconnect.omnissa.com/downloads/info/slug/desktop_end_user_computing/omnissa_horizon_clients/8
2. Look under the dropdown that is appropriate to your Operating System type.
