

Zoom Camera Flickering When Using Boxtop on a MAC

05/07/2025 11:48 am EDT

If you are experiencing issues with your camera flickering in Boxtop during a Zoom meeting while using a MAC then follow these steps.

1. Open your Zoom Application.
2. Go to settings and select Video from the left hand side.
3. Make sure your correct camera is selected and if HD is not checked on please turn it on and save.
